Recruiting	By invitation	Through partners	Through partners	Through MSPs		By invitation	Through partners		Through Building a Presence Sites and other networks
Details	Workshop will focus on use of a train-the-trainers packet being developed by MERLOT	Workshop will train and encourage partner orgs to conduct training with their user audiences. Time will also be spent in creating a plan for further outreach and publication through the partner orgs' communications vehicles	Workshop will train and encourage partner orgs to conduct training with their user audiences.	CSERD is matching funds from another grant source to allow for two workshops. Workshop will target Math and Science Partnerships with a train-the-trainers approach. Two workshops will serve different regions, capitalizing on the regional infrastructure of the MSPs.		Workshop intended to promote resource use and contribution within the MRSECs and their partner institutions. NSF program officers in Math and Physical Sciences directorate will also be invited to participate	Workshop will train and encourage partner orgs to conduct training with their user audiences.		Teachers' Domain is matching funds from another source to allow for two workshops. The first workshop will focus on the use of the TD resources and integrating multimedia into standards-based classrooms. The second workshop will focus on TD professional development courses.
Status	Planned follow up with Rachael in May	Planned follow up with Linda and Amy after their BEN partners' meeting where ideas for workshop will be generated.	Bruce will talk with comPADRE PIs and will be in touch in late April	Planning a meeting with Joni Falk at TERC to assist with working with MSPs	SVG to call Alice	Letter of invitation wassent April 11. Hotel and NSF facilities arrangements are being made by Donna C. SVG will generate draft budget and timeline. Determine who from CI will attend.	Call for participants will go out in late April. Lang will send timeline in late April.	SVG to call Kim	Next step: flesh out workshop outline. Pilot parts at NSTA short course in Anaheim, CA in April.
