Could Stephen Hawking Access Your NSDL Site?

Make your NSDL site accessible to people with disabilities. Improve usability, extend your reach, prepare for users with mobile devices.

Access NSDL offers help at www.AccessNSDL.org

Help us improve our tools by filling out a short survey about the kinds of media your collection is offering. What accessibility concerns do you have? What do you know and what do you want to learn?

Tools, resources, solutions, inspiration — Access NSDL!

Accessible Content Lifecycle

Instructors create content
Authoring tools create transformable content and prompt for alternative or equivalent resources for meta-data

Content is stored in a digital repository
Meta-data stored about accessibility features

Other instructors or learners search for content
Repository matches meta-data on the resource to learner information

Translators or accessibility service providers add additional variant resources
Digital rights management keeps track of ownership of original material while supporting variants
